## Our Story

Digilogix was founded in 2002 and has since its establishment been at the forefront of Office and IT Communication Systems and Solutions. To remain relevant in this ever-changing Technological World, we have expanded our offering to embrace the complete ICT (Information Communication and Technology) which brought about the creation of our Datacall and XITD entities. These exciting new value-adds have provided our existing customers with a host of opportunities.

Our Expansion into new business opportunities has allowed us to provide many new clients with innovative solutions for their businesses. This has been achieved with our exceptional team of experienced and qualified professionals, our people treat complex problems with transparency, creativity and ingenuity – that's what sets us apart.

Our 22 years of experience in the industry allows us the flexibility and understanding to consolidate ICT into a single strategic layer providing our clients with the information to make accurate and informed decisions.

More

## Our Core Values

### RESPECT

We treat everyone with respect and dignity. We value diversity and differences of opinion

### TEAM WORK

We drive success through strong collaboration and being loyal to one another

### ACCOUNTABILITY

We are accountable for our actions and inactions

### SERVICE EXCELLENCE

We do what we say we will do

### PASSION

We perform our roles with purpose and positive attitudes

### ADAPTABILITY

We embrace change and still perform

### AMBITION

We are the change we want to see

### FUN

Work hard, play hard
